

Hall Green NNS

Hall Green Neighbourhood Network Scheme

Hall Green's Neighbourhood Network Scheme (NNS) aims to support people who are 50+ to better connect to groups, organisations, activities, services and places in the neighbourhoods where they live.

NNS is part of a city-wide initiative to support Birmingham's new community social work model and the related investment in preventative activities to reduce people's need for social care as they age. Accord is the NNS co-ordinators for Hall Green. Building on ongoing community dialogue we want to

- Promote what already exists
- Invest in initiatives to meet local diverse needs
- Strengthen community groups' capacity to fill recognised gaps.

Our team is currently focusing the small grants programme; capacity building work; and assets and activity directory activities on strengthening community action to address the impact of the Covid 19 outbreak.

Our operating areas include Sparkbrook; Sparkhill; Balsall Heath; Moseley; Kings Heath and Hall Green. To find out more please contact us:
